# Non-Corrosive IP65 Fittings

Benefits and Features

- Top Quality at a mid-price point.
- Single and twin options in 5ft & 6ft lengths
- Pre-wired for LED - Quick and easy to install.
- Choice of colours with added benefit of future LED tube sales.
- User replaceable lamps, no need to call a contractor.
- Made from Extremely tough ABS for maximum damage resistance.
- Grade 316 stainless steel tamper resistant clips with screws, will not rust with age for ease of future maintenance.
- Tough Polycarbonate Cover, will not degrade due to UV and is much stronger than the Acrylic covers used on budget units.
- Higher Lumen maintenance factor and low flicker rate compared to traditional Fluorescent tubes makes these units Ideal for use with CCTV.
- Fully enclosed and secure, Suitable for use in food preparation areas.
- Comes with mounting brackets, suspension eyelets and knockout points for surface, suspension or conduit mounting options.
