

CROMPTON LAMPS LED SMART LIGHTING RANGE

Smart Wireless Lighting Compatible with Smart Devices and Home Hubs

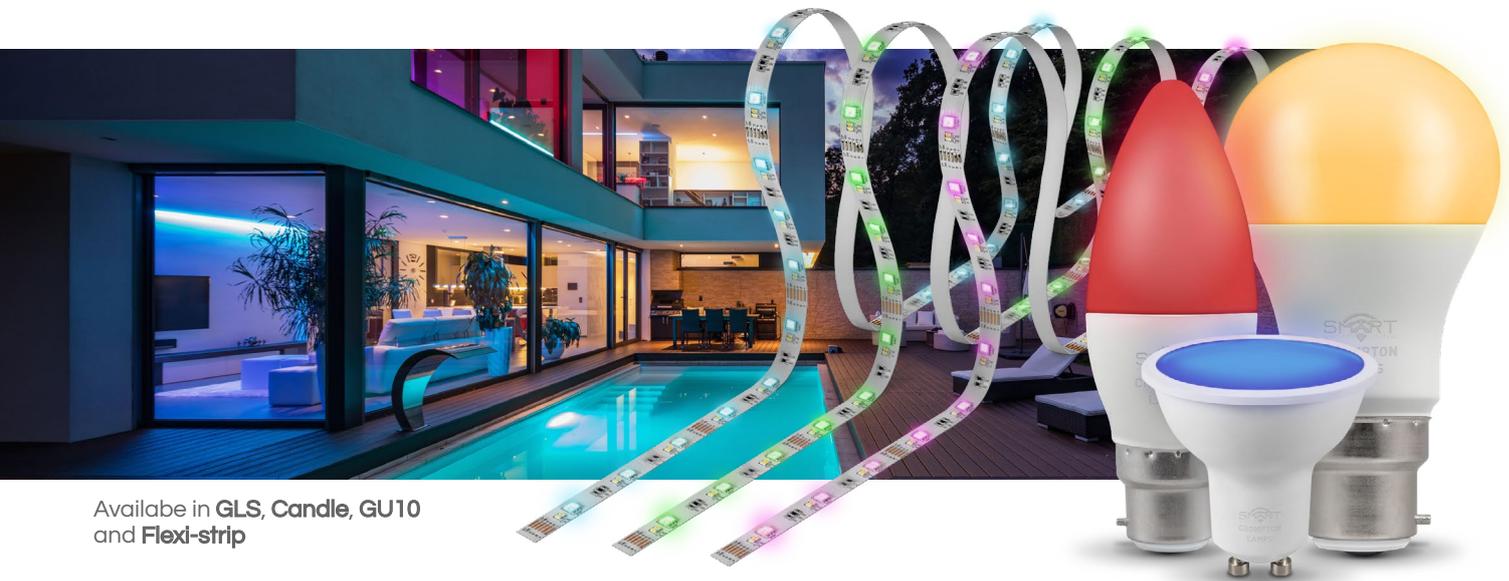

- App and voice control
- Wireless connectivity
- Colour changing technology and smart dimmable
- Available in GLS, Candle, GU10 and Flexi-strip

Next Generation Lighting

Take full control and personalise your lighting experience with Smart Wireless Lighting designed to complement your lifestyle. Create custom lighting schemes, change colour, schedule lights to switch on or off at set times and control your lights from anywhere all with the swipe of your finger or by voice command.

Available in **GLS, Candle, GU10** and **Flexi-strip**

Easy Set-Up and No Extra Hub Required

Pair Smart Lights directly to your smart device without the need for an external hub or bridge. No external hub means no extra hardware costs, no unnecessary wires and no extra installation steps, simplifying and speeding up the set-up process.

Tuya Smart

Android or Apple smart device required for set-up using Tuya Smart App.
Tuya Smart App and wifi 2.4GHz 802.11b/g/n required for set-up.

Install lamp

1

Download Tuya app and follow instructions

2

When set-up is complete, light is ready to use

3

Sync lamp to home hub using home hub app

4

Crompton Lamps Limited

Trade Descriptions: All descriptions represent only particulars of the goods to which they apply and do not form part of any contract. Due to policy of continuous development and improvement, Crompton Lamps Limited reserves the right to change the specification and performance data of the products listed without prior notice or public announcement.

App and Voice Control

Use the Tuya Smart App or sync your lights to a compatible home hub app after set-up to control your lights with the touch of a screen or by voice command. Sit back and effortlessly instruct your smart lights to turn on/off, dim down, increase the brightness or change colour.

Compatible with most smart home hubs including **Amazon Echo** and **Google Home**

Custom Lighting Schemes and Commands

Personalise your lighting experience by creating and storing custom lighting schemes and commands to be used when you need them. Create the perfect lighting for watching movies, reading books, working in the home office or spending time with family and friends.

Control Your Lights From Anywhere

Control Smart Lights remotely from anywhere via the Tuya app or compatible home hub app. Whether at work, socialising with friends or away on holiday, users can switch on/off, dim lights and much more with the swipe of a finger.

Scheduled Smart Lighting

Smart Lights can help home security by switching on/off, individually or as a group at specific times when you're not home. They can also be set to switch on in the mornings or turn off through the night all while you sleep.

Individual and Group Lighting

The Smart Light range allows users to control each lamp individually or as part of a group. The group feature enables users to group all smart lamps in a particular room together and control them all as one.

Colour Changing Technology

All lights in the Smart Light range are available as an RGB option. The colour changing technology enables colours to be quickly changed with a simple finger swipe or by using one of the 123 colour voice commands. Users can create and store custom lighting schemes to complement their activities.

RGB Available in: GLS, Candle, GU10 and Flexi-strip

3000K, 4000K and Tuneable White

With various options to choose from on the colour temperature scale, users are provided with the choice of traditional 3000K warm white or 4000K cool white for a modern feel. Tuneable white options are available that allow users to adjust the colour temperature to suit their current mood or setting.

3000K Warm White	4000K Cool White	Tuneable White
------------------------	------------------------	-------------------

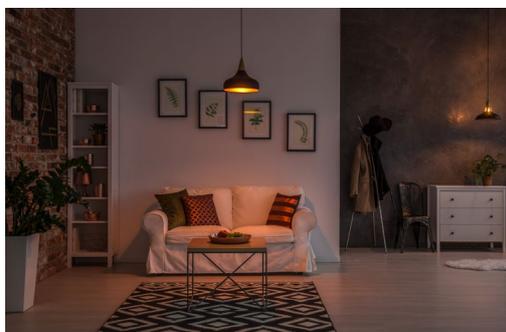

3000K Available in:
GLS, Candle, GU10 and Flexi-strip
4000K Available in:
GU10
Tuneable White Available in:
GU10 (2700K-4000K) and Flexi-strip (2700K-6500K)

Smart Dimmable

The Smart Light range are dimmable via compatible smart app or voice control. Simply swipe the app or ask your home hub to dim or brighten lights to the desired level, then sit back and relax as the smart lights instantly respond.

Dimmable via app or home hub, not compatible with a physical dimmer switch.
