* Crompton 12V LED MR11 lamps will operate with most 12V transformers. However, some 12V transformers may have a minimum required load which may not be met when installing low powered LEDs; these transformers may cause flickering or the LEDs not to function correctly. If in doubt, Crompton Lamps can supply a suitable LED driver (Part number: LEDDRIVER10W) which is guaranteed to drive 2x 3.5W LED MR11. Contact Crompton Lamps for more information or for prices of our LED Driver.
