

# Colourglazed Round

Colourglazed lamps provide strong vibrant colours as an alternative to the sparkling appearance of the Harlequin lamp. The coating is applied internally and will not wear away, which combined with the rough service vacuum construction to resist vibration, makes them ideal for outdoor applications where dirt and dust is encountered. Round lamps are often used when the lamp forms in integral part of the luminaire design.

- 1,000 hour life
- Suitable for outdoor use
- Choice of 7 colour finishes
- BC-B22d cap
- Internally fused for safety
